

Cullahill Wind Farm

SAMPLE MET MAST

Cullahill Wind Farm Ltd.

As communicated recently, a temporary 80 metre met mast has been installed on the site to collect wind speed, direction, temperature, humidity and air pressure.

An application has recently been submitted for the retention permission of the existing 80 metre meteorological mast.

If you have any question on this met mast application or indeed any queries at this point, please contact our Freephone number below.
